DETAILED ACTION

Drawings

Figures 1 and 2 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Jonsson (US Patent 4,754,789), Kostermeier (US Patent 4,194,545), Sundstrom (US Patent 3,981,337) or Kokko et al (US Patent 5,649,579).

The device of Jonsson, Kostermeier, Sundstrom or Kokko reads on the structural and method of the claimed invention including a wear plate (14, 5, 14 or 3, respectively), a knife (12, 4, 15 or 1, respectively), compressing means (16, fig. 1, 30, or 5, respectively), knife clamp (15, 6, 28 or 2, respectively) and bracket (33 and 34, fig. 1, 31

or fig. 7 and 8, respectively). It should be noted that the device of Jonsson, Kostermeier, Sundstrom or Kokko et al meets the steps of the method including a compensating force of the force directed to the knife clamp, caused by the diagonal position of the knife and transversal to the compressive force is exerted to the wear plate.
